## PRESS RELEASE

### VC South Invests in NTerVu

**ATLANTA, GEORGIA, December 1, 2006** - NTerVu, a Web 2.0 company that builds expert interview systems, has announced an investment by VC South, an Atlanta-based private equity firm providing early-stage venture capital. Terms of the deal were not disclosed.

NTerVu is a revolutionary online tool which turns any hiring manager into an expert interviewer in under 5 minutes. It generates custom interviewing questionnaires complete with core competencies and behavioral-based questions recommended by experts. It allows managers to view and compare candidates "side by side" for consistently better hiring decisions and reference checks to determine the best possible candidate.

"VC South provided unique advantages to us beyond the funding," said April Basile of NTerVu. These advantages included an exceptional team of VC South IT developers which greatly accelerated product development, and massive marketing assets such as unique access to over 350,000 HR executives through another VC South portfolio company. Shared financial management and VC South's 24x7 shared customer service staff further reduced overhead during the critical early stages.

The NTerVu system more accurately predicts a candidate's potential for success. After each interview, built-in comparison tools automatically analyze candidates and display their strengths and weaknesses compared to the core competencies required for the position. Behavioral interviewing has a strong track record in the Fortune 1000 of increasing hiring success by over 50 percent. The online NTerVu "software as a service" system enables companies of any size to take better hiring to the next level.

"We are pleased to invest in NTerVu which helps any manager interview and hire better," said Michael Price, Managing Director of VC South. "Almost every manager has made a bad hire at some point and the cost of bad hires is high. Research has shown increasing numbers of companies are using behavior-based methods to screen applicants. NTerVu enables any manager to become an instant pro at interviewing and selecting the best possible candidate."

NTerVu is an indispensable tool for any manager or HR staff. It can be used instantly as a standalone tool or in conjunction with most popular HCM and ERP HR workflow systems. See [www.NTerVu.com](http://www.NTerVu.com) for a free 30-day trial.
