

VC South Invests in BizCollections

Atlanta, GA, February 4, 2008 – BizCollections, a cutting edge business debt collection company, has announced an investment by VC South, an Atlanta-based private equity firm providing early-stage venture capital. Terms of the deal were not disclosed.

BizCollections specializes in high volume, small business collections on a performance basis. Advanced list technology and a highly efficient collection system allow the company to collect outstanding receivables at higher recovery percentages than any small business debt collection system. With better reach and higher response rates than other organizations, BizCollections has a reliable and effective solution to recover accounts that are delinquent, aged or have even been written-off.

"Beyond the funding, VC South provided distinctive advantages to us," said Cathy Comella of BizCollections. "These benefits included an exceptional team of VC South IT developers and management personnel which greatly accelerated product development."

"We are pleased to invest in BizCollections which offers a cost effective solution to collect from business customers better than any other system because of the data mining and contact technology. BizCollections enables clients to pursue outstanding debt indefinitely," said Lee Culberson, COO of VC South.
